

IRISH LEAGUE MEETING

President Michael J. Ryan of Philadelphia Called the Great Gathering to Order at Boston Today.

Special to the Herald.

Boston, Mass., Sept. 22.—The convention of the United Irish League of America had a brilliant opening in Faneuil Hall today. President Michael J. Ryan of Philadelphia called the gathering to order and presided over the session. Archbishop O'Connell delivered the prayer, and welcomes were extended in behalf of the state of Massachusetts and the city of Boston. The honored guests of the occasion were John Redmond and Joseph Devlin, members of parliament and leaders in the Irish movement. Taxing the capacity of the hall was an attendance of delegates who came from all parts of the United States and Canada.

The present convention will be in session three days. President Ryan, in his address, pointed out that since the last convention of the United Irish League was held in Philadelphia the cause of Ireland has made substantial progress in the British Parliament. Among the measures passed were bills providing comfortable cottages with one-acre allotments for 30,000 agricultural laborers, conferring marked benefits on town tenants, and repealing the coercion law, known as the arms act. The constant agitation of years has resulted also in the practical settlement of the Irish University question, and for the first time in three centuries the Catholic youth of Ireland are enabled to enjoy educational facilities on a basis substantially equal to that of their protestant fellow-countrymen.

A GREAT DISCOVERY.

Certain Ingredients That Really Grow Hair When Properly Combined.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilcarpin, although not a coloring matter or dye, is a well known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.

These ingredients in proper combination, with alcohol added as a stimulant and for its well defined nourishing properties, perfect the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. We guarantee it to positively cure dandruff and to grow hair; even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness. If the scalp has a glazed shiny appearance, it's an indication that baldness is permanent, but in every other instance, baldness is curable.

We want everyone troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print

THE POWDER TRUST SUIT

Special Referee Today Began Taking Evidence in the Government Suit Against Big Trust.

Special to the Herald.

Wilmington, Del., Sept. 22.—William G. Mahaffey, the special referee appointed by Judge Gray of the United States circuit court of the district of Delaware, today began the taking of evidence in the suit begun by the government against the so-called Powder Trust. The principal defendant in the case is the D. E. I. du Pont de Nemours company of Delaware. Also involved are about thirty powder concerns which are alleged to be more or less controlled by the Delaware corporation.

The suit is regarded as one of the greatest that the government has ever brought against a corporation. The capitalization of the powder concerns named in the suit is in excess of \$50,000,000. The same principles are involved as in the government's suit against the Standard Oil company of New Jersey, now in progress. The Powder Trust suit seeks to restrain the thirty or more powder companies controlled by the Du Pont de Nemours company from doing business under an alleged agreement. The suit is brought under the Sherman anti-trust law, and the government makes the allegation that the powder companies are operating in restraint of trade.

The government's complaint is that an association composed of practically all the manufacturers of gunpowder and other high explosives in the United States was formed in 1872,

Hanged This Morning.

Kingston, Mo., Sept. 21.—Albert Filley was hanged in the county jail here this morning for the murder of his wife, daughter and brothers.

A crowd numbering into the hundreds surrounded the jail and threatened to lynch Filley if he should be reprieved at the last moment. They cheered when the prisoner's death was announced. Filley proclaimed his innocence to the last. His neck was not broken by the drop, and the body hung for fifteen minutes before he was declared dead.

PRINTERS GET INCREASE.

Employees of Government Printing Office Will Get a Raise.

Washington, D. C., Sept. 21.—Through President Roosevelt's order the employees of the government printing office are to get an increase in pay of ten cents per hour. This will make the wages \$4.80 a day.

the object being the elimination of all competition between the members of the association. The only companies that did not enter the agreement were the California Powder Works, the Sycamore Manufacturing company, and the Lake Superior Powder company, but, according to the government's complaint, these three companies afterward became parties to what is termed "the combination and conspiracy in restraint of trade and commerce."

After the preliminary hearings have been concluded here the case will be shifted to New York, and a lot of evidence will be taken in that city.
